SESSION 9

SATELLITE SYMPOSIA

Molecular genetic research in oncology and hematology

Olkhovsky I.A.
Filipenko M.L.

The role of molecular methods in the implementation of programs to resist the HIV epidemic

Pokrovskiy V.V.
Bogoslovskaya E.V.
Trocenko O.E.

Respiratory, intestinal and other infections in the background of the dynamic circulation of COVID-19

Danilenko D.M.
Burtseva E.I.
Vasin A.V.

Nosocomial infections and problems of antibiotic resistance

Eydelshteyn M.V.
Sidorenko S.V.

Technologies of detection of infectious and hereditary diseases in animals

Kolbasov D.V.
Zaberezhniy A.D.

The correct classification of genetic variants – the main problem in modern oncogenetics

Mikhaylenko D.S.
Tsukanov A.S.
Druy A.Y.

Gene diagnostics and genomic epidemiology of tuberculosis and other mycobacterial infections

Mokrousov I.V.
Zhuravlev V.Y.
Urvashi B. Singh

Point-of-Care methods of diagnostics of infectious diseases: the key to rapid diagnosis

Gorsky E.V.
Basmanov D.V.

Molecular methods in transfusiology and transplantology

Zhiburt E.B.
Paramonov I.V.
Abdrakhmanova S.A.

Technologies of detection of infectious and hereditary diseases in animals (part 2)
